“

I see myself as a storyteller,
clients hire me to write their
biographies, but instead of words
I use fabrics, furniture, architectural
elements and of course personal
items to them.

About Aadharshila

AADHARSHILA, an Architecture and Interior Design Firm, is a team motivated by the desire to provide comprehensive design solutions and to develop a healthy client- architect relationship based on effective design practices and sensitive solutions.

True to its name meaning 'foundation', we have a strong belief that any project needs a strong concept design. Expertise in the field of both architecture and interior design enables the firm in delivering comprehensive and holistic solutions to varying challenges pertaining to the site as well as the client's aspirations.

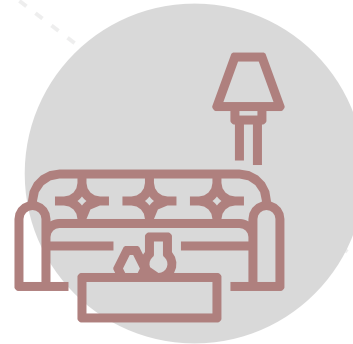

Efficient integration of design with engineering services in order to optimize on resources, time and quality forms the backbone of the firm's philosophy. Aadharshila believes that good design not only meets the aesthetic and functional needs of a client, but is also an effective marketing tool. It is our endeavour to develop relationships based on integrity, commitment and quality.

OUR STRENGTHS

True to its name meaning 'foundation', we have a strong belief that any project needs a strong concept design. Our strengths lie in delivering comprehensive and holistic solutions in the field of both architecture and interior design

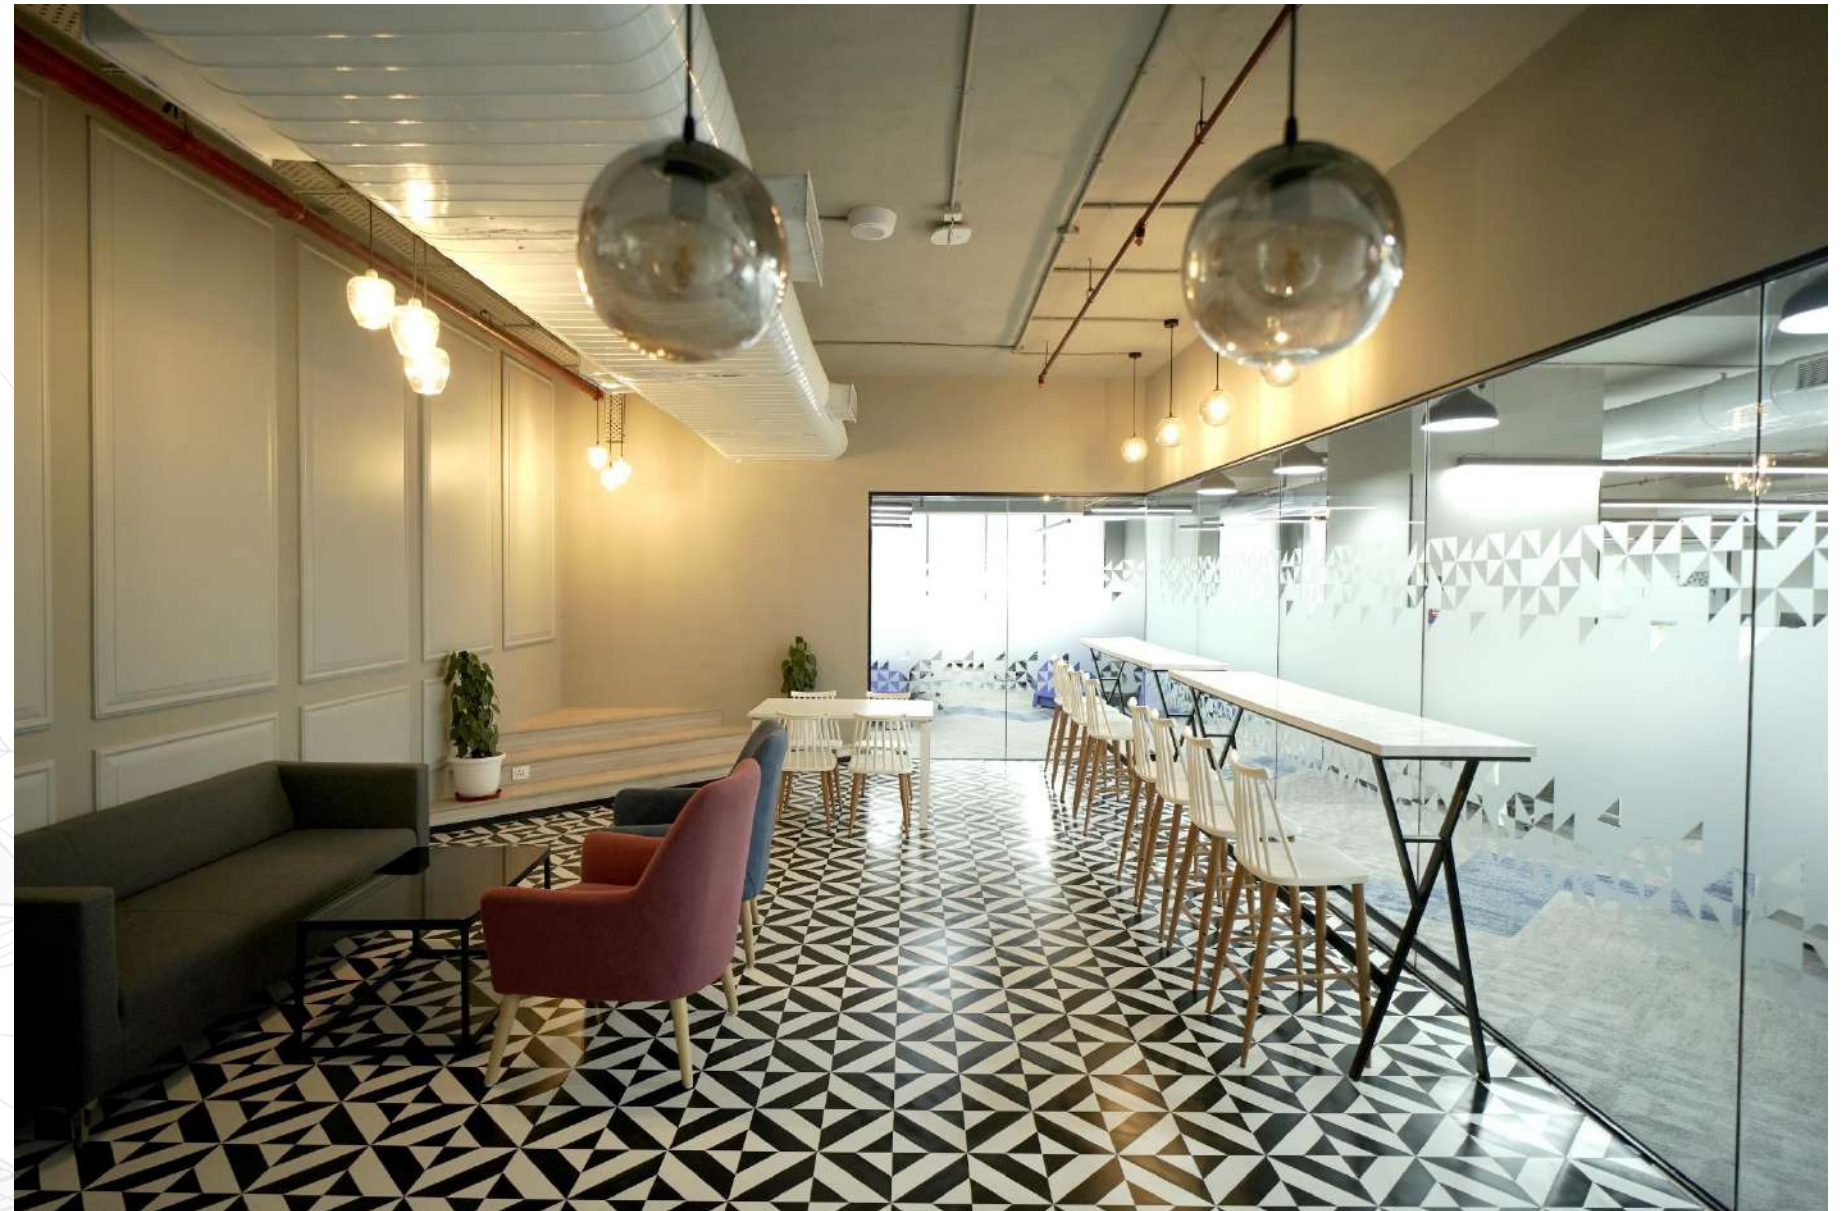

Innovation

Our team consists of passion driven individuals who aspire to build the best. We have the advantage of both young creative minds and experienced professionals who help us achieve landmark after landmark. Concepts are worked upon and detailing is done in a way so as to weave onto one fabric the design on paper and at site.

Timely Completion

We do understand that time is the essence of each project. We work in an extremely planned manner to achieve each milestone in the given timeframe and handover the projects to clients on the pre-determined dates.

Quality Management

We are committed to quality in all aspects of our operations. To help us achieve our quality objectives, we have developed processes and procedures that are reviewed by us on a regular basis.

Post Construction

With the works finished on the site, our post execution defects liability period starts. Though we are seldom approached in the same, but if needed, our complete technical and execution teams are ready to clear off any hindrances.

Sustainable Approach

We prioritize sustainability by integrating eco-friendly materials, energy-efficient solutions, and low-impact design practices. Our approach balances aesthetics with environmental responsibility, ensuring each project is adaptable, durable, and mindful of its ecological footprint. Through innovation and collaboration, we create designs that are both inspiring and sustainable for a better future.
